

### + HIPAA Compliance

AcromWiFi connectivity infrastructure meets the same security & privacy standards as the U.S. HealthCare

### + High performance WiFi

Ensures high-speed even in crowded environments, where traditional WiFi systems exhibit degradation of performance or connectivity loss.

### + Seamless Roaming

Uninterrupted connectivity while moving from one room to another

 2C Pipera Tunari st,

**AcroWiFi**  
The Cloud-Based  
HIPAA/PCI Compliant  
WiFi Connectivity Service  
for Healthcare  
+

**+** *Guest WiFi*

*Provide your patients and their visitors access to internet and/or hospital resources*

**+** *Mobile Healthcare*

*Provides a safe and reliable infrastructure to for the next technology shift in medicine: mobility*

**+** *Marketing channel*

*You can advertise other hospital services and/or partners' products via a splash screen, which will be presented to WiFi users upon attempt to use the internet.*

**+** *Content filtering*

*Young patients can benefit from a safe internet browsing environment, with restrictions to appropriate sites only.*

**+** *Bring Your Own Device*

*Allow medical staff to bring in their own mobile devices, if they wish. It will improve their work satisfaction without sacrificing security.*

**+** *Brand awareness*

*Guests can be asked to check-in the hospital location on facebook before proceeding to internet. This will raise brand awareness on social networks.*
