

# NCR PIX30 POS TERMINALS

VESA-compatible 12" or 15" POS terminals for wall or pole installation

## Reliable, VESA-compatible POS terminals are ideal for the smallest spaces

The NCR P1230 and NCR P1530 are the latest in NCR's mainstream line of POS terminals and they are designed especially for professional use in the hospitality industry. The highlights of this product line include a high-performance dual core processor, a bright 1024x768 LED display with durable touchscreen, low power consumption and a rugged, fan-free housing. The product line is also designed to provide a high level of reliability, maximum uptime and low total operating costs.

### New applications

With electronics built into the back of the display, the NCR P1230 and NCR P1530 terminals do not use a pedestal. This provides a range of installation options such as on the wall or on particularly narrow countertops.

### High level of reliability and stability

Thanks to use of the embedded processor family from Intel, the NCR P1230 and NCR P1530 offer a very high level of reliability. This proven and widely acclaimed technology from the Orderman Columbus family will provide reliable operation for many years ahead.

### Different dimensions, same resolution

The POS terminal is available in 12-inch (NCR P1230) and 15-inch (NCR P1530) formats. Both models feature the same 1024x768 resolution and offer standard, software-specific configuration parameters, as well as the same user-friendly operation – even when running different firmware versions.

### Range of connection options

Both the NCR P1230 and NCR P1530 models feature four serial RJ12 connections, three USB 2.0 ports and a 12V-powered USB port. In addition, an external monitor can be connected to the DVI output.

# Why Orderman?

Orderman GmbH is part of the global NCR Corporation. With its premium products, the Salzburg-based company is the leading provider of technology solutions for the European hospitality industry. Handhelds, POS systems and services from Orderman are used worldwide in more than 35,000 restaurants. Innovative technology

combined with a unique user experience and an emotionally strong design have made Orderman a global leader and a synonym for mobile technology in the hospitality industry. Every day some twenty additional restaurants choose Orderman systems. For additional information, go to <http://www.orderman.com>

## Delivery scope

- NCR P1230 or NCR P1530 POS terminal
- External power supply
- Operating system, operating manual and driver pre-installed

## Optional accessories

- NCR P1X30 standing installation kit
- NCR P1X30 wall installation kit
- NCR P1X30 cable safety cover (for wall installation kit)
- SpacePole® screen top mount SPV1102, pole 300mm, VESA 75/100; iron grey

## Product highlights

- 12" or 15" LED display with resistive touch screen
- Resolution: 1024x768 pixels
- VESA-compatible, 75x75 mm
- Fan-free with passive cooling of electronics
- Dual core processor and LED backlight ensure energy-saving and environment-friendly operation, as well as a long service life

## Technical data

Technical specifications	P1230 POINT-OF-SALE TERMINAL	P1530 POINT-OF-SALE TERMINAL
