

QA Lead (Senior)

Department: Quality Assurance
Job level: Middle/Senior (min 4-5 years of experience on the job)

We are looking for a **QA** specialist who will help grow and mature the quality assurance stage of our product / hardware / software development life cycle. The person will work together with ACROM product teams and external customers to understand their requirements and then organize and coordinate QA activities accordingly.

The successful candidate will have a good understanding of QA methodologies, supported by hands-on experience with automated testing platforms. She or he will be organized, will have good communication skills but also a solid technical background.

Day-to-day work:

- Meet internal and external stakeholders to understand requirements and scope of projects
- Organize, coordinate, measure and report QA activities according to stakeholder needs
- Provide guidance and support to our QA team members
- Work with software developers to understand the areas of functionality that need to be tested
- Design test scenarios that will cover functional requirements
- Design web browser automation test-scripts
- Additionally, design test scenarios that will ensure a good product is released (like corner-case testing, boundary testing) as well as, when required, non-functional testing (performance & stress testing)
- Select the right strategy and/or technologies to develop the test scenarios
- Write and execute automated test scenarios, as well as run manual tests when needed
- Write/generate/automate test reports
- For released products, develop new tests to prevent reissuance of bugs (regression testing)
- Create, install, configure, maintain and backup the testing platforms

Skills and knowledge:

- Experience with at least one Testing Automation framework (e.g. Cucumber)
- Experience with automated web browser/UI testing frameworks (e.g. Watir)
- Experience with Continuous Integration frameworks (e.g. Jenkins)
- ANT – for Build Automation
- Ability to multi-task/work on concurrent projects
- Interest in learning new technologies as the context/clients may demand

What we offer:

- Real possibility to make a difference in a dynamic company with an entrepreneurial spirit
- Access to courses and certifications depending on the need
- Real possibilities of promotion within the company
- Annual performance bonus

- Package of medical services supported by the company
- Transport from the office to the subway Pipera or Aurel Vlaicu, provided by the company
- Fitness room pass
- Relaxation room
